OBJECTIVE

Passionate software engineer with a strong background in web technologies and problem-solving. I aim to contribute my technical skills and creativity to develop scalable, user-focused solutions that drive innovation and efficiency. Experienced in both independent and team-based projects, I bring adaptability, attention to detail, and a continuous learning mindset to every challenge.

SKILLS

- JavaScript
- React
- HTML
- CSS
- MongoDB
- React Router
- Redux
- jQuery
- GIT

EXPERIENCE

2016 - 2018
Jr. JavaScript Developer - Software Allies.
- Development and maintenance of FrontEnd functionality.
- Development prototypes for applications and websites.
- Creation logos, banners and buttons for the sites.v

2018 - 2021
IT Consultant - City Hall of Teocuitatlán de Corona
- Led the end-to-end redesign of the town's official website: information architecture, UX/UI and mobile-first layout.
- Set up a lightweight CMSt so non-technical staff could publish news, events and public communications in minutes.
- Launched digital services: announcements, events calendar, contact forms, transparency portal and service request intake.
- Optimized performance fort low-bandwidth users (image compression, lazy loading, caching) to improve accessibility.

2022 - Now
Software Engineer — Softtek
- Front-end development for enterprise web apps using React, TypeScript and Next.js.
- State management with Redux Toolkit/Zustand; forms with React Hook Form.
- Integration with REST/GraphQL services; authentication with OAuth2/OpenID Connect.
- Built and maintained a reusable design system (Storybook) adopted by multiple squads.
- Performance & quality: improved Core Web Vitals, unit/e2e tests (Jest, React Testing Library, Playwright), CI/CD with GitHub Actions/Azure DevOps.

LANGUAGES

- **Spanish (Native):** Full professional proficiency in speaking, writing, and public communication.
- **English (B2 – Upper Intermediate):** Strong reading and writing skills, capable of holding technical conversations, writing documentation, and collaborating on international projects.
- **Technical English:** Familiar with industry terminology for software development, agile methodologies, and IT documentation.

EDUCATION

- **Telematic Engineering - Universidad de Guadalajara, CUSur (2012–2017)**
  Strong background in networking, telecommunications, and software development.
  Hands-on experience with PHP, HTML, CSS, JavaScript and database systems.
- **Continuous Learning**
  Ongoing training in React, Next.js, Node.js and modern web technologies.
  Active learner through online certifications and specialized courses.
